FIRST PRIZE FOR ROSES.
For the Outdoor Tea Variety
John D. Rockefeller Wins the Honor.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH)
TARRYTOWN, June 16.—John D. Rockefeller won first prize for outdoor tea roses at the Fruit and Flower show here in the gymnasium of the Y.M.C.A. under the auspices of the Tarrytown Horticultural Society. He also took second prize in class No. 12 for the best display of outdoor roses, his neighbor, Gen. McAlpin, taking first honors.

GUNMAN INNOCENT.
Rabbi Jacob Goldstein Says One Mistake Made in Executing Rosenthal Murderer.
(BY A. P. NIGHT WIRE)
ALBANY (N. Y.) June 16.—Rabbi Jacob Goldstein, a chaplain at Sing Sing Prison and the Tomb, New York City, asserted before the Bill of Rights Committee of the constitutional convention today that one of the four New York gunmen executed for the murder of Herman Rosenthal went to his death an innocent man, and that the District Attorney's office has admitted as much in a communication to Gov. Whitman. Mr. Goldstein would not name the gunman, but he is believed to have referred to "Dago Frank" Croft.

Philadelphia Meeting Today to Discuss Means of Preventing War.
League of Great Powers is Suggested to Pass Upon All Disputes.
Doubts that Force as the Ultimate Factor will Ever be Eliminated.

(BY A. P. NIGHT WIRE)
PHILADELPHIA, June 16.—Former President Taft, in an address here tonight, outlined the plan for the proposed league of peace which will be discussed in Independence Hall tomorrow. Mr. Taft was firmly of the opinion that a league of peace could be formed which would enable nations to avoid war by furnishing a practical means for settling international quarrels, or "suspending them until the blinding heat of passion had cooled."

ONE BILLION AND A HALF.
The Money We Get for Arms and Ammunition Sold.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH)
NEW YORK BUREAU OF THE TIMES, June 16.—According to estimates, the United States will receive in 1915 \$1,500,000,000 from the sale of war munitions to the warring nations. The benefits to be derived by the United States from purchases by the allies can be summarized as follows:

Great Britain	\$ 500,000,000
Russia	500,000,000
France	400,000,000
Italy	100,000,000
Total	\$1,500,000,000

With a total as large as this the United States government could pay off its entire interest-bearing debt and there would still remain a balance of more than \$500,000,000. The above does not represent the entire benefits that will accrue to the United States. As an example, there will be the several hundred million dollars that American tourists spend in Europe annually and several payments of interest to holders of American stocks abroad due to foreign liquidation incident to the war.

PAYS HUBBY FOR HER KEEP.
MRS. TOWNSEND OF DENVER REFUSES "TO BE CONTROLLED."

(BY DIRECT WIRE—EXCLUSIVE DISPATCH)
DENVER, June 16.—Determination of John R. Townsend, wholesale grocer of Denver, to "control his wife," coupled with a desire to control her expenditures of money and efforts to alienate the affections of her 17-year-old son by a former marriage, were the principal factors in the breaking up of the Townsend home, according to the testimony which Mrs. Georgia Scott Townsend gave this afternoon when her divorce suit was tried in the District Court. The evidence resulted in Judge Butler's finding Townsend guilty of mental cruelty and awarding Mrs. Townsend a divorce.

SAN FRANCISCO, June 16.—The oil tank steamer Desabla, under charter to the British government, was sunk by a German submarine off the coast of North Scotland Monday, according to a telegram received today by Robert Mitchell, treasurer of the General Petroleum Company, of San Francisco. The vessel was owned by Andrew Weir, a British oil financier. Weir's cablegram was brief and conveyed no news of the fate of the steamer's crew.

NEW YORK, June 16.—Both wine and water may be used to christen the \$15,000,000 superdreadnaught Arizona when she is launched at the New York navy yard Saturday. It is owing to the fact that Arizona is a dry State there had been some speculation as to whether the customary bottle of champagne would be broken on the Arizona's bow as she slid from the ways.

PEACE FORCED ON EUROPE VIEWED AS A MENACE.
Public Men of America are Said to Dread It Even Worse than War.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH)
WASHINGTON BUREAU OF THE TIMES, June 16.—There is some uneasiness among public men here, by his comic opera series of "pieces" about peace, may hamper the great world effort that will be made at the close of this war for a permanent peace plan. The United States stands in a strange and paradoxical position at the present time. Unable in a strict military sense to fight a fourth-class power, this country stands with the lever in her hands. With one tug she can bring all the great powers of the world, with the exception of Germany, to their knees. The United States can force peace throughout Europe in a month by prohibiting the exportation of any more ammunition. But public men look forward with dread to a peace that may be almost worse than war. If peace comes simply as a cessation of fighting, without some enforcement system for continuing peace, then the next phase of the world's history will simply be one mad and frantic scramble to manufacture ammunition. The other name for this is world bankruptcy. This war has taught several staggering lessons to all nations. It has generally been said that Germany is the only nation which was not taken by surprise. But the truth is, Germany was as much surprised as the rest at the manner in which modern battles are fought. No nation anticipated the fact that

GERMANY DESIRES PEACE WITH THE UNITED STATES.
Ambassador Gerard Cables Our Latest Note is Well Received and that the Unanimous Opinion is it will be the Basis for a Complete Understanding—Berlin Press Voices Strong Sentiments of Friendship.

(BY A. P. NIGHT WIRE)
WASHINGTON, June 16.—Ambassador Gerard cabled today his first informal report on how the latest American note to Germany was received in official quarters in Berlin. He spoke of its reception as friendly and courteous, and said the unanimous opinion seemed to be that the document afforded a basis for diplomatic negotiation and settlement. Long extracts from German newspaper editorials, most of which have already been published here, were transmitted by the Ambassador. There is a friendliness of tone in them and an absence of the bitterness which has previously characterized some of the newspaper utterances. The Ambassador's own comment was brief and of a general character, bearing out press reports of the favorable impression made by the note, especially because published reports had reached Germany that the United States would send something in the nature of an ultimatum. Mr. Gerard had no intimation as to when a reply would be received, or what its specific character would be. It was thought he had merely stated his impressions based on the general trend of comment in Berlin official quarters. Officials here have been much encouraged by the manner in which the German press and officials have regarded the American communication and believe that the manner in which the understanding is much clearer than it has been. The arrival of Dr. Anton Meyer-Gerhard in Norway was noted here today and it is supposed he will lay before high officials of the government before the end of the week material from Count von Bernstorff, the German Ambassador, which, it is thought, will help toward clarifying the situation and producing an official adjustment of the controversy.

PREDICTS SETTLEMENT.
LONDON, June 16.—A peaceful settlement of the questions which have arisen between the United States and Germany is predicted by Dr. Anton Meyer-Gerhard, who is on his way from the German Embassy at Washington to Berlin to explain the situation to the German government. In an interview published by the Frankfurter Zeitung and forwarded to London by the Amsterdam correspondent of Reuter's Telegram Company, the interview was obtained yesterday at

EXPEDITION TO MEXICO IS DOUBLED IN FORCE.
Yaquis Having Declared War on the United States, Germany and Mexico, the War Department is Taking no Chances in Personnel of Party Which will Go to Relief of Americans.

(BY A. P. NIGHT WIRE)
WASHINGTON, June 16.—Late today orders went out from the Navy Department to Admiral Howard commanding the Pacific fleet, to take 200 bluejackets as well as the 200 marines previously arranged for, on his expedition to the Yaqui Valley. Assistant Secretary Roosevelt said the admiral had wide discretionary powers to land an expedition if necessary to rescue Americans who want to come out of the region of Indian depredations. The Yaqui Indians, according to today's State Department advices, have declared war on Germany, Mexico and the United States. Their declaration of war on Germany, the advices said, was because a German colonel, a crack rifle shot, defended his home in the last Yaqui raid with remarkable success and much disaster to the raiders.

BRITISH FORCE GERMANS BACK.

Evacuate Positions at Ypres,
Fighting Continues.

Four Divisions of English
Take Part in Affair.

Army of Mackensen Takes
Many Slav Prisoners.

(BY ATLANTIC CABLE AND A. P.)
BERLIN, June 16 (via London).—The German army headquarters today gave out the following statement:

"In the western theater:
"In consequence of the Russian defeat the English and French again attacked many points on the western frontier with strong forces. The English succeeded in forcing back to some extent our positions near Ypres, to the north of Belleward, where the battle continued.

"Two attacks made by four English divisions between the Estaire-La Bassée road and the canal failed, our Westphalian troops and divisions of the guard completely repulsed the assaults after desperate hand to hand fighting. The enemy sustained heavy losses and left several machine guns and bomb throwers in our hands.

"Since the defeat of June 13-14 the enemy had made no further ventures against the strong positions near Lorette Hill held by Baden troops. Near Mouille-Sous-Touvent fighting continued.

"An attempt made by the enemy to break through our line in the Vosges between the Fecht and the Lautz valleys, failed. Fighting there continues now only to the northwest of Metz and Hilsenfort. Otherwise all the attacks were repulsed.

"In the eastern theater:
"Russian attacks against the German positions southeast of Mariampol, east of Augustow and north of Bolimow were all repulsed. Our attacks along the Lipowo-Kalwarya front gained further ground, several positions being recaptured. We made 3940 Russian prisoners and captured three machine guns.

"On the north of the Upper Vietha our troops repulsed an attack on the positions we took from the Russians on Monday.

"The defeated Russian armies attempted on Tuesday along the whole front between the River San, north of Sielawa, and the Dniester marshes to bring the Teutonic allies to a standstill. In the evening the Russians everywhere had been driven from their positions near Giespie, north of Sielawa. In the Lubysow-Zawadzka section, southwest of Wisniew and west of Sadowa-Wisniew. The enemy is being pursued.

"Gen. Mackensen's army has captured upwards of 40,000 men and sixty-nine machine guns since June 12.

"Between the Dniester marshes and Zuzawa the Russians have gained some ground, but the general situation there has not changed."

RECONNAISSANCE BY BELGIANS.

(BY ATLANTIC CABLE AND A. P.)
HAYRE, June 16.—The Belgian War Office tonight made public the following official statement:

"During the night of June 14-15 we pushed forward a reconnaissance as far as the counter house situated at the nineteenth milestone on the Dixmude-Women road. This reconnaissance obtained a footing on the western fringe of the park belonging to the house, in trenches which the enemy had precipitately abandoned, leaving his dead behind. During the day there were artillery duels.

"There have been violent bombardments at Ramcapelle, Pervyse, Noordcheete and Reninghe and environs."

AUSTRIA INVADES OUR CONSULATE.

(BY ATLANTIC CABLE AND A. P.)
LONDON, June 17, 4:15 a.m.—The American Consul at Trieste has protested strongly at Vienna, according to a Geneva dispatch to the Daily Express, against the arrest of his guest, the Italian Vice-Consul, Signor Canova, in the American Consulate. The Italian Vice-Consul has been interned despite assurances given to the American Consul by the Governor of Trieste that his liberty would be respected.

gether with a large quantity of rifles and cartridges were taken. Rhelms again has been bombarded heavily, and the French report that about a dozen shells fell on the famous cathedral. German aeroplanes have dropped bombs on Nancy, St. Die and Belfort.

RUSSIA.

The capture of 123,300 Russians and a great number of guns from June 1 to June 15 is reported by the Austrian War Office, while Berlin's report gives the German Gen. Von Mackensen credit for the capture of 40,000 prisoners since June 12. Whether the latter are included in the Austrian official estimate is not made clear.

Military observers at Petrograd express the belief that 2,300,000 Germans and Austrians are operating against the Russians in the east. No one so far has attempted to say with any exactitude how many Russians are under arms to oppose this immense force, but early in the war Russia's potential powers for recruiting were placed high up in the millions.

Each day adds to the extent of territory which the Austro-Germans have regained from Russia's invading armies, and they are still pressing their campaign against Lemberg, the Galician capital, with the utmost determination and unquestionably large losses on both sides.

Battles of a rather minor character, but with strategic points as their objective, are being carried on by the Italians against the Austrians along the Austro-Italian frontier. The Italians have now come up to the previously prepared and powerful defenses of the Austrians on the Isarno River, and, with the superlative artillery which Italy possesses, heavy fighting may be looked for in the near future.

OFFICIAL LONDON REPORT.

(BY ATLANTIC CABLE AND A. P.)
LONDON, June 16, 8:30 p.m.—Sir John French, commander-in-chief of the British forces in France, reports that the British troops captured and then lost a line of German trenches at Festubert on a mile front, but failed to hold them during the night against strong counter-attacks.

"Early this morning in the neighborhood of Ypres we successfully attacked the enemy's positions north of Hooge (to the east of Ypres). We occupied the whole of his front trenches on a front 1000 yards and also parts of his second line.

"By noon today 157 prisoners had been taken, and the British counter-attack has been repulsed with heavy losses.

OFFICIAL FRENCH REPORT.

(BY ATLANTIC CABLE AND A. P.)
PARIS, June 16, 10:30 p.m.—The following official communication was issued by the War Office tonight:

"To the north of Ypres the British troops have captured a line of German trenches. The gains made to the west of La Bassée have not been maintained.

"In the sector to the north of Arras we have gained ground at divers points, notably to the east of Lorette, to the southwest and south of Couches and in the 'abyss' of the Bois de la Lys. We took 300 prisoners and several machine guns.

"To the south of Arras the Germans violently bombarded the positions which we held in the region of the Tontout farm, but without delivering an infantry attack.

"At the Kuesneville farm, after having repulsed several counter-attacks by the enemy, we extended our gain to the northwest of the place already captured. We made about a hundred prisoners, including two officers.

"The town of Rhelms has been bombarded. The enemy has thrown about a hundred shells, several of which were of the incendiary type, and about a dozen of the projectiles fell on the cathedral.

"In the Vosges we have realized important progress on the two banks of the upper Fecht. On the north bank more particularly we have taken possession of Braun-Kop. The enemy left in our hands 340 prisoners, not wounded, of whom four were officers, and a large quantity of material, comprising a number of rifles and 500-600 cartridges.

"Yesterday several bombs were dropped on Nancy, St. Die and Belfort by German aeroplanes operating singly. At Nancy only several civilians suffered by the attack."

Resisting Advance.

Isolated Italian Attacks are
Repulsed by Austrians.

(BY ATLANTIC CABLE AND A. P.)
BERLIN, June 16 (via London).—Special dispatches from the Austrian headquarters report that the Teutonic allies are pushing the Russians vigorously from the San River to the Bessarabia frontier. The latest operations are said to have resulted in bringing Gen. Mackensen's forces in contact with Gen. Linsingen and Gen. Planzer.

Heavy fighting is proceeding along the whole line in Galicia, but the maximum apparently has not yet been reached. The Russians are bringing all their available forces, consisting partly of fresh recruits, to resist the advance of the Germanic allies.

VIENNA REPORT.
(BY ATLANTIC CABLE AND A. P.)
VIENNA, June 16, via London.—The following official communication was issued today:

"In Galicia the Russians, despite their obstinate resistance, could not withstand the general attack by the allied armies. Hotly pursued by our victorious troops, the remainder of the defeated Russian corps are retreating across Newkowi, Lubackow and Javorow.

"South of the Dniester the fighting is proceeding before the bridgehead. The troops of Gen. Planzer yesterday captured Nizhyn.

"From June 1 to June 15 our total booty has been 168 officers and 123,300 men, 63 cannon, 187 machine guns and 58 munitions wagons.

"The Italians have attempted new isolated attacks, but these were everywhere repulsed, notably on the Isarno near Montefiore, Sagrado and Pavia; on the Carinthian frontier east of Ploekien, and in the Tyrolean frontier district near Toulstein."

Safe Conduct Back to Germany.

Dr. and Mrs. Bernard Dernberg.
This photograph was taken at the entrance of the German Club in New York, where Dr. and Mrs. Dernberg held a farewell reception before parting from America. Prevailed upon by one of his countrymen to say a few words for the newspapers, Dr. Dernberg said he did not know what the future held in store for him. He asserted that in the gigantic struggle going on in Europe no single individual's welfare was of any import. He will serve the Fatherland, he said, as he has in the past, in whatever place his humble services may be needed.

WAR RELIEF FROM MASONS.

LARGE SUMS COLLECTED FROM
THE GRAND LODGES IN
THIS COUNTRY.

(BY A. P. NIGHT WIRE.)
CINCINNATI, June 16.—The Masonic war relief, association of the United States in a report issued today announces that \$55,852 has been collected from Grand Lodges, commanderies, chapters, temples and Scottish Rite bodies for the relief of the Moslems in the European war. Of this amount \$18,000 has been distributed among the proper Masonic bodies in England, Ireland, Scotland, Germany, Luxembourg, Switzerland and Belgium. The report adds:

"It is apparent that the greatest need for relief will be when the war is ended."

The feeling of the American people and government toward Germany is not at all belittled, on the contrary, there prevails an absolute desire for peace.

"It is for this reason, as trumpeted abroad, that the American fleet has been concentrated for participation in the European war."

"The feeling among German-Americans is splendid. Their love for the motherland is strong, their belief in the ultimate success of their country is unshakable, and their desire for peace is sincere."

Germany Desires Peace.

(Continued from First Page.)

Christiansand, Norway, when the steamer United States, on which Dr. Meyer-Gerhard was a passenger, touched at that port.

"Conflicting views existing between Berlin and Washington regarding the Lusitania affair led to a misunderstanding and will be settled peacefully," Dr. Meyer-Gerhard is quoted as saying.

The conflict between President Wilson and Secretary Bryan is of old origin and arose from quite different causes than the Lusitania affair. The breach was rendered inevitable by the independent procedure of the President, who rejected the counsel of his responsible Minister and drafted the latest American note to Germany according to his own ideas.

Wilson framed this reply to Germany without even consulting Mr. Bryan, the latter had no other recourse but to request that he be released from office.

The tension between the two must therefore be regarded as entirely a domestic affair. The feeling of the American people and government toward Germany is not at all belittled, on the contrary, there prevails an absolute desire for peace.

Visitation of East Coast of England. Results in Many Fatalities—Mysterious Accident Soaring Over Rome Stirrs Fears of Italians in a Pitch—Nineteen Deaths at Karlsruhe.

(BY ATLANTIC CABLE AND A. P.)

LONDON, June 16.—The following official statement regarding the Zeppelin air raid was issued tonight:

"Further inquiries show that the casualties in connection with the visit of a Zeppelin to the northeast coast Tuesday night amount to sixteen killed and forty injured.

"It is now possible to state more exactly the casualties resulting from an airship raid on another portion of the northeast coast on the night of June 6. The number of deaths there was twenty-four, comprising five men, all civilians, thirteen women and six children. There were also forty cases of more or less serious injuries.

"The principal fires were in drapery establishments, a lumber yard and a terrace of small houses."

factories. The allies, as a consequence,
face this singular position: If they
have soldiers enough in the trenches
there aren't workmen in the factories
to keep the rifles loaded. If there
are workmen enough in the factories
there aren't soldiers enough in the
trenches to keep the rifles loaded.
All the nations have been caught
in a terrible predicament owing to
the failure to anticipate trench war-
fare. They cannot afford to be caught
again. After the war the world will
witness a debauch of shell making.
This will be worse than the main-
tenance of the huge armies, whose
 upkeep almost bankrupted Europe
for twenty-five years. The financial
strain will be far worse, also more
deplorable; for the money spent in
training soldiers at least resulted in
beneficial education.

So confident are some of the big
American manufacturers that this
phase must follow the war that they
are making preparations to enter into
the bullet business on a big scale. One
of the trade journals states that the
bullet business will be a similar
machinery for the manufacture of
rifles as a permanent part of the busi-
ness. One of the big match factories
has a similar intention. They all
foresee that a large part of the wealth
of the whole world must be spent on
making bullets after this war is over.

Germany's wonderful success in this
war against all the combined powers
of Europe has also exploded the fond
idea held by British and Americans
that an army can be scratched to-
gether some way or other when
needed.

With her pride in the dir, England
now fully realizes that only her for-
tunate diplomatic alliances have saved
the British empire, and that it may
never again be possible to build up
such alliances.

After the war, England will begin
building up a great war machine like
Germany's, and the United States will
be inevitably forced to take steps in
the same direction. The next session
of Congress will be the great national-
defense session.

The prospect for us and for all the
nations of the world is too appalling
to be faced. When peace comes all
public men here feel that it must
come with some plan for permanent
peace.

Several petitions looking toward an
international police force toward an
enforced freedom and neutralization
of the seas with an armed interna-
tional sea patrol have been proposed.
The late Secretary of State is furiously
engaged on a piece for the papers
outlining his plan.

An official close to the German
Embassy has stated that after the
war Germany intends to ask for a
council of the nations looking toward
a new rule of war by which all ves-
sels other than ships of war are to
be immune from attack.

SETTLES SPEED
OF LUSITANIA.

INQUIRY WILL SOON END, SAYS
LORD MERSEY.

Investigator is Satisfied on Most
Important Questions and That
There Were No British Destroyers
Sent as an Escort—Thousand
Tons of Coal Saved on Voyage.

BY ATLANTIC CABLE AND A. P.]
LONDON, June 16.—Baron Mersey,
president of the court of inquiry into
the sinking of the steamship Lusitania,
intimated this afternoon that
the investigation would be soon ended.
The Baron said his mind was quite
satisfied as to the most important
questions—the speed of the vessel at
the time she was attacked and the
absence of British destroyers as an
escort. He believed the court had be-
fore it all the evidence it was likely
to obtain relative to the alleged short-
age of officers and the use of boats
at the time of the catastrophe.

The court connected with the case
were inclined to believe tomorrow
would be the last day. One of the
points settled today was that there
was only one boat drill during the
voyage. On that occasion some mem-
bers of the crew, in life belts, ac-
cidentally jumped in. This
drill lasted only a few minutes.

The coal saved during the voyage
by cutting off six of the twenty-five
boilers amounted to 1000 tons, accord-
ing to the testimony of a passenger
who said he received this information
from Staff Captain Anderson.

TAX UPON WAR PROFITS PLAN OF LLOYD GEORGE.

Measure to Prohibit Strikes and Lockouts Prejudicial
to the National Interest in Controlled Factories will be
Introduced in Parliament as a Means to Hurry Along
Munitions of War.

[BY ATLANTIC CABLE AND A. P.]
LONDON, June 17, 2:44 a.m.—The
government appears to have
abandoned, at least for the pres-
ent, any idea of resorting to com-
pulsion in the organization of industries
for the production of munitions of
war. David Lloyd George, the Min-
ister of Munitions, when he first
broached the idea of compulsion in
public, was attacked vigorously by
Radicals and Laborites, who opposed
compulsion, either in recruiting for
the army, or for industrial purposes,
arguing that such methods would pro-
duce in Great Britain the alleged evils
seen in the German military system.

Mr. Lloyd George's conference with
the trade unionists has resulted in an
agreement upon a bill, which will be
introduced in the House of Commons
next week and passed with all possi-
ble speed, which will give the govern-
ment power to prohibit strikes or
lock-outs prejudicial to the national
interest in controlled factories and will
provide that all questions of wages
and conditions of employment shall be
settled by a specially appointed tri-
bunal.

It was announced in Parliament
yesterday on behalf of the government
that it was intended to impose a spe-
cial tax on war profits and that a
measure with this object in view was
being considered. As far as is known,
the employers generally are not offer-
ing open resistance to this plan, which
probably will form part of the first
budget of the new Chancellor of the
Exchequer, Reginald McKenna.

This budget, according to the Times,
promises to be the most terrific in-
strument of taxation in British fiscal
history.

Looking Ahead.
GUARD THE FOOD SUPPLY,
LONDON TIMES' WARNING.

[BY ATLANTIC CABLE AND A. P.]
LONDON, June 17, 3:30 a.m.—The
Times editorially calls attention
to the need of the government to
organize the nation's food supply in a
similar manner to that in which it is
now organizing the supply of munitions.
It says:
"An idea that Germany is faced
with starvation must be abandoned.
Clearly, Germany's food supply is
secured for a long period ahead and it

behooves England to think of her own
supply. The recent fall in the prices
of wheat is only a temporary relief due
to a combination of circumstances
which can not be expected to continue.
Some scheme of calculating our
needs and resources should be pre-
pared in conjunction with our allies
and expert direction should be given
to the farmers and others concerned
in the production of food by the
Board of Agriculture, so as to obtain
the best results and avoid needless
waste."

MANY KILLED
AT KARLSRUHE.

[BY ATLANTIC CABLE AND A. P.]
LONDON, June 17.—A Rotterdam
dispatch of the Exchange Telegraph
Company reports that the damage
done at Karlsruhe by the air raid of
the French squadron of aeroplanes
was much greater than the papers
were allowed to state.
"Two hundred persons were killed,"
says the correspondent. "Fifty homes
were destroyed, one of them almost de-
stroying one of the ducal palaces used
as headquarters by the Kaiser's
commandant. Others destroyed a
number of factories engaged in manu-
facturing shells. A great panic was
caused, and the victims will be buried
secretly at night."
The people are ignorant of the
utter failure of the air raid measures,
and they complain that the signs of
the approach of the French destroyers
were given."

SETTLES DISPUTE
WITH ICELAND.

[BY ATLANTIC CABLE AND A. P.]
COPENHAGEN, June 16 (via Lon-
don, June 17).—The long-standing
difference between Iceland and Den-
mark regarding the flag and constitu-
tion of Iceland has been settled by
the Cabinet of the two governments.
The agreement involves no conces-
sions to Iceland from Denmark.

The provisional government of Ice-
land resigned last December after it
had declined to submit a bill for a
new constitution for ratification by
the King of Denmark on the ground
that it could not agree with the King's
demands that the Danish state coun-
cil should have the right to "discuss"
the affairs of Iceland. The King there-
upon refused to permit the flying of a
special Icelandic flag until the differ-
ence was settled.

PROF. ZORN
SCORES WILSON.

[BY ATLANTIC CABLE AND A. P.]
AMSTERDAM (via London) June
17.—Prof. Philipp Zorn of the chair
of law at Bonn University, and who
was a member of both The Hague
conventions, attacks the administra-
tion of President Wilson in an article
in the Cologne Gazette, a copy of
which has been received here.
"We have clear conscience as far
as international law is concerned,"
says Prof. Zorn. "But has the Wil-
son government an equally good con-
science? I answer: No. The findings
of the German people are bitter
against America, not against the
American people, whom we consider
our good friends, but against the Wil-
son government, which is neutral only
in form."
"Our army, our people and the
Kaiser are insulted in the meanest
most lying fashion by the Ameri-
can press. President Wilson is called
a traitor. The war would have been
except for American supplies. We ac-
cuse President Wilson before God and
the world of guilt for the continuance
of this fearful murder. That is the
neutrality and Christianity of Presi-
dent Wilson and his government."

[BY A. P. NIGHT WIRE.]
NEW YORK, June 16.—A request
that water be used in the christen-
ing of the new dreadnaught Arizona,
to be launched at the navy yard here
Saturday, was telegraphed to Secre-
tary of the Navy Daniels today by
Mrs. Ella A. Boole, president of the
Women's Christian Temperance Un-

the national organization. Mrs. Boole
in her message stated that the State
organization "earnestly urges that
water be used in the christening of
the Arizona on Saturday." Arizona,
the message continues, "adopted pro-
hibition by a large majority and such
use would meet with approval."

YOUR MODEL

Corsets, no matter what your figure requirements may be.
And you will find costliness who know, and who will
take pleasure in helping you to select your model, whether
it be a Laced-back or a Laced-front corset.

You will be surprised to discover the subtlety with
which authoritative style and comfort have been combined.
For instance, the new flexible top clasp, which perfectly
supports, yet yields just enough; the protecting shield in
laced-front models, which prevents even a hint of dis-
comfort from contact of the flesh with the lacing.

ILLINOIS BLOW

MEASURE PASSED WILL STOP
DIVISION OF FEES WITH
EMPLOYERS.

[BY A. P. DAY WIRE.]
SPRINGFIELD (Ill.) June 16.—By
a vote of 25 to 9 the Illinois Senate
today passed the Merritt bill prohib-
iting the sale of tipping privileges. The
measure is aimed at the so-called tip-
ping trust and prohibits the division
of gratuities between employee and
employer.

The House went on record against
the abolishment of capital punish-

for the consideration of the Liph-

penalty.

[BY ATLANTIC CABLE AND A. P.]
BIRMINGHAM (Eng.) June 16.—
The proposed employment of women
as bus and tram car conductors has
been abandoned here, the men hav-
ing refused either to teach the women
their duties or to move the vehicles
on which they were engaged. The
committee in charge of the move-
ment, therefore, has decided to em-
ploy youths under 18 years of age
and men over the military age as con-

GERMANS PLEASED
WITH THE AWARDS.

[BY A. P. NIGHT WIRE.]
SAN FRANCISCO, June 16.—Sixty
German exhibitors at the Panama-Pa-
cific Exposition sent a letter to Presi-
dent C. C. Moore of the exposition to-
day concerning the decisions of the
superior jurors of awards, in which
they said:
"Of all the neutral acts in the
United States the findings of the su-
perior jury of awards in the German
exhibits at the exposition is the most
neutral."
Walter Schult, German commis-
sioner to the exposition, said that
some Germans were somewhat dis-

appointed when the jury was made
up without German representation.
"But," he continued, "we have
nothing but the highest praise for
the findings of the jury, for we have
been most justly treated."
German exhibitors received five
grand prize awards, eight medals of
honor and twenty-two gold medals.

THE WEATHER BACK EAST.

Hopes of Real Summer are Revived
By Rising Temperatures in Nearly
All Sections.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
CHICAGO BUREAU OF THE
TIMES, June 16.—Chicago began to
have hopes of summer today when the
temperature rose to 78 deg., an average
of 4 deg. higher than other lake
cities and 12 deg. cooler than the Ohio
Valley. Eastern States also were no-
tably warmer with considerable
rains. Southern showers fell over the
East Central and West Central States.
Arizona leads the hot list with 104
deg. and Texas points report 100 deg.

NEW STATION
FOR KITE WORK.

WEATHER BUREAU TO LOCATE
ONE IN NEBRASKA.

Equipment for Aerological Re-
search to Ascertain Conditions at
an Altitude of Three or Four Miles
will be Transferred to Elk Horn,
West of Omaha.

(BY A. P. NIGHT WIRE.)
OMAHA (Neb.) June 16.—Charles
F. Marvin, chief of the Weather Bu-
reau, who was a luncheon guest of
the Omaha Commercial Club today,
made public the fact that the bureau
is transferring from Mt. Weather,
Washington, the equipment for
aerological research, to a new station
established on what is known as the
"Drexel farm," about four miles
northeast of Elk Horn, Neb., and
eighteen miles west of Omaha. This
will hereafter be the principal sta-
tion for kite work in investigations of
weather conditions of the upper air
within three or four miles of the
earth's surface.

The new station will be operated in
connection with the balloon station
at Fort Omaha, which has been
turned over by the War Department
to the Weather Bureau. Air condi-
tions as high as twenty to twenty-five
miles will be recorded by instruments
carried by miniature balloons sent up
from Fort Omaha.

It is the intention of the bureau to
establish from time to time tempo-
rary stations at different points to
take aerological observations, in
connection with the permanent sta-
tion, which it is expected will be in
operation within a couple of months.

Mr. Marvin explained that the change
of the location of the research sta-
tion is made because storms usually
travel from west to east so that west-
ern observations are more valuable
than those made in the East.

NORMAL SERVICE RESUMED ON
ALL CHICAGO LINES.

Union Labor Representatives and
Railway Men Agree on Arbitration
with Mayor Thompson as Neutral
Member of Committee, and Differ-
ences will be Taken Up.

(BY A. P. NIGHT WIRE.)
CHICAGO, June 16.—Normal ser-
vice on Chicago elevated and surface
car lines was resumed today after an
all-night session of railway and union-
labor representatives and a Council
committee headed by Mayor Thompson.
The elevated lines resumed service
soon after the announcement of the
agreement, but it was several hours be-
fore anything like a normal schedule
was in operation. On the surface lines
the first cars to appear downtown
reached the loop about 11 o'clock.
They attracted great crowds and were
cheered enthusiastically. Thereafter
there was a gradual increase in the
number, but it was not until the rush
hours of the evening that the surface
lines were in full operation.

The formal agreement between the
companies and the unions was not
signed until noon, although the order
had gone out to the 14,000 employees
to return to work several hours be-
fore. Mayor Thompson is credited
with bringing about the agreement and
was chosen third or neutral arbiter.
The arbiters representing the men
and the companies will be chosen by
the respective interests before Satur-
day, on which day the first meeting
of the three arbiters is to be held.
Representatives of the unions and
of the companies expressed satisfac-
tion at the end of the trouble that had
inconvenienced the public for three
days.

BOND FOR JINETS.
(LOCAL CORRESPONDENCE.)
SANTA ANA, June 16.—Further
regulating Jinets, the City Trustee
has instructed City Attorney Scott
to draw a provision to place a bond
of \$1000 upon each Jinet, so there
may be an opportunity to recover up
to that amount from a Jinet who
does damage.

HEAT OF SUN
NOT CONSTANT.

Remarkable Discovery Made
by Noted Scientists.

Money Appropriated for Mt.
Wilson Experiments.

Important Fact is Revealed
for Pigeon Fanciers.

(BY A. P. NIGHT WIRE.)
BOSTON (Mass.) June 16.—Pro-
gress in the work of exact determina-
tion of the amount of heat received
by the earth from the sun, which has
been the object of experiments re-
cently conducted by Messrs. C. Ab-
bot, F. E. Fowle and L. B. Aldrich
of the Smithsonian Institution at
Washington, is described by these
scientists in the June number of the
proceedings of the National Academy
of Sciences.

They have found that the amount
of heat is 1.93 calories per square
centimeter per minute; that is to say,
enough heat is received from the
sun on each square yard of heat
a pound of water to boiling in 2 1/2 mi-
nutes. The heat which is received at
the earth's surface is somewhat less
than this, namely by the variable
amount that is absorbed by the earth's
atmosphere. The remarkable discovery
has also been made that the heat
received from the sun is not constant
but variable from month to month or
year to year by perhaps as much as
10 per cent. This variation might be
expected to make pronounced differ-
ences in the growth of vegetation or
in the general climate from year to
year; but for some reason, perhaps
through the variable effects of the
earth's atmosphere, the variations in
the heat received from the sun seem
to be unimportant so far as crops are
concerned.

The National Academy of Sciences
has recently made an appropriation
of \$250 to Dr. Abbot for the purpose
of enabling him to complete and test
an apparatus consisting of a concave cylin-
drical mirror of about 100 square feet
surface for concentrating the sun's
heat on tubes containing oil, which is
then made to circulate through a
reservoir containing ovens and water
pipes, so as to utilize solar radiation
for cooking and heating water for do-
mestic purposes.

BREEDING OF PIGEONS.
The academy announces also in the
June number of its Proceedings, some
interesting results on the breeding of
pigeons. There has been a general be-
lief among pigeon breeders that from
the two eggs which are laid, hatch-
ing, one male and one female are
produced—if not always, at any
rate in most instances; that of the
pair the male hatches from the egg
which is laid first, and that for some
reason in the adult pigeons there is
an excess of male birds. Elaborate
records kept for period of seven
years, first at the Rhode Island agri-
cultural experiment station and later
at the experiment station at Mad-
ison, Wis., and now printed in the
academy Proceedings by L. J. Cole
and W. F. Kirkpatrick, settle a num-
ber of questions connected with these
beliefs of breeders.

The observations show that there
are hatched about 105 males to 100
females, and that there is a higher
mortality among the young adult fe-
males than among the males. These
facts justify the common belief that
there is a considerable excess of
males in the adult population. It is
found, however, that there is no founda-
tion for the belief that one male
and one female are hatched in each
brood; on the contrary, the number
of the broods in which the two squabs
are both male or both female ex-
ceeds that in which the sexes are
equally divided. Finally, there is no
ground for the idea that the male is
hatched from the first egg laid and
the female from the second.

Another announcement tells of the
progress which investigators at the
Rockefeller Institute for Medical Re-
search in New York are making in
the study of sugar in human blood
and the function of the pancreas in
eliminating it.

In diabetes, the amount of dex-
trose (sugar) in the blood, is higher
than normal, and when it is suffi-
ciently high, it escapes through the
kidneys. Messrs. Kleiner and Moller
of the Rockefeller Institute of Medi-
cal Research announce that experi-
ments on animals from which the
pancreas has been removed show that
the ability of the animal to get rid
readily of surplus of sugar injected
into the veins is greatly impaired, and
that their ability to get rid of the
sugar can be temporarily restored by
injecting a pancreatic emulsion into
the veins. The authors are still at
work upon the problem, but appear
satisfied that the internal secretions
of the pancreas determine the ability
of an animal to regulate the sugar
content of the blood.

Government Statistics Show Prices
of Foodstuffs are Gradually In-
creasing Each Year.

(BY A. P. DAY WIRE.)
WASHINGTON, June 16.—The cost
of living is higher than ever before
in the United States, as far as govern-
ment statistics show, and is increasing
each year. In 1914 the year's cost
of filling the market basket of the
average workingman's family was \$5.65
higher than it was in 1913, and \$60.43
higher than in 1907, calculating on
relative price figures announced today
by the Federal Bureau of Labor Sta-
tistics as a result of its most recent in-
vestigation of retail prices.

SUFFRAGE HEAD

MISS PAUL SAYS CALIFORNIA
WILL HAVE BIGGEST MEET
EVER HELD.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
WASHINGTON BUREAU OF THE
TIMES, June 16.—Miss Alice Paul,
chairman of the Congressional Union
for woman suffrage returned here to-
day from California after a trip
through that State in behalf of the
Federal amendment to remove from
the ballot the qualification of sex.

"Of course we have not forgotten
the convention of women voters to
be held in San Francisco next Septem-
ber," said Miss Paul. "The largest
and most interesting meeting of wom-
en voters ever held in the world will
be that one in California."

"We have expert field workers en-
gaged in rallying sentiment for the
San Francisco convention," continued
the fair suffragist. "And are much
encouraged over the outlook."

"From California we will come to
Washington by train by boat and
by automobile for the convening of
congress."

Miss Paul declared that the suffrage
association had been recently organ-
ized in California.

STATE BOARD OF EDUCATION
CALLS FOR BIDS.

Children of Seventh and Eighth
Grades are to be Taught in One
Hundred Thousand Words, Their
Duty to the State and the State's
Duty to Them.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SACRAMENTO, June 16.—The
State Board of Education has called
for bids on books or manuscript for a
text-book on citizenship for use in
the seventh and eighth grades of the
public schools, the authors to com-
pile under the general rules of the
board for such content. The compet-
ing works, which will be approximate-
ly 100,000 words in length, will be
presented to the board in March, 1916,
and the award then made.

The book, according to the board's
plan, will depict the duty of the child
to the State and nation, and of the
nation and State to the child; of the
employer to employee, and of em-
ployee to employer.

It should, according to the board,
apply particularly to the laws and in-
stitutions of California, and should
describe the workings of the various
commissions and departments of the
State government, contrasting them
with conditions prevailing elsewhere.
All unfair boasting is tabooed.

(BY A. P. NIGHT WIRE.)
PHILADELPHIA, June 16.—A plea
for world peace with a united church
to aid nations in preventing wars was
voiced by former President Taft today
at the forty-third commencement of
Swarthmore College. Mr. Taft said he
believed that when the present strug-
gle in Europe is ended the trend of
international public opinion will be
toward a league of nations whose in-
terest in the maintenance of univer-
sal peace will make them recognize
the advantages of a union against war.

DELAWARE (O.) June 16.—"The
Scholar in Politics" was the topic
addressed by Josephus Daniels, Sec-
retary of the Navy, who this morning
delivered the graduating address at
Ohio Wesleyan University. That the
day of the practical politician had
passed and that the scholar is coming
into domination was the general tenor
of his talk.

The degree of Doctor of Laws was
conferred upon Secretary Daniels.
The Rev. Francis Marion Larkin, '85,
editor of the California Christian Ad-
vocate, received the degree of Doctor
of Divinity.

The Man Who Rents

Did you ever figure the cost?

Get a pencil, tear off a piece of paper and take
just five minutes to see where you stand. Ever
total up what you have paid out in rent during
the past two years?

Try it—then see how much cash you can raise
on your "rent receipts." Here's what two men
put down in cold figures—

The Man Who BOUGHT—

Price of bungalow on rent payments \$1850.00
Interest on deferred payments 800.00
Taxes and insurance for 10 years 150.00

Total \$2800.00

RESULT—Dead to Property conservatively
worth at that time \$2800.00.

The Man Who RENTED—

Ten years rent at \$22.00 \$2200.00

Wear and tear and cost of moving 100.00

Total \$2300.00

RESULT—Pays out \$140 more and has
NOTHING but 120 Worthless Rent
Receipts.

Think it Over

Talk with any one of our thousands of satisfied cus-
tomers and then let us show you one of our modern
4-room bungalows with lawn, trees and flowers at
above price and terms as low as \$75 cash and \$18.50
per month including interest. They are close in on
a good 50 car line and on high ground, in good re-
stricted district. Come in or phone and we will
gladly show you the property. Don't wait until they
are all sold.

BANK**

To buy these high-class, stylish shoes and slippers,
in Hamilton exclusive designs, at half price and
below cost of manufacture is just the same as putting
money in the bank.

The opportunity won't come again in many years;
you had better take advantage of it now. Women who
know this grade of footwear are buying several pairs
at a time. They are shoes we formerly sold at \$4 to \$10
and are selling now for a fraction of their value; giving
you the profits from this entire stock.

Our object is to quickly turn our store into a Men's
Store exclusively, and we decided to give women, in-
stead of Shoe Jobbers, the profits. Bank half your shoe
money and get double value with the other half at Ham-
ilton's.

Look at the makes we are offering; if you have worn any of
them you know their worth.

GEN. CARRANZA DECLINES VILLA PEACE OVERTURE.

*Three Offers from Opposing Factions Have Gone
Unanswered and First Chief Continues to Labor Under
the Hallucination He will be Recognized by United
States if He Keeps on Fighting.*

(BY A. P. NIGHT WIRE.)

WASHINGTON, June 16.—Gen. Carranza has declined for the present at least to accept overtures for peace in Mexico by the Villa-Zapata faction. Three such offers have gone unanswered.

The latest, it became known today, was transmitted through the medium of the United States without comment. A few days ago the convention assembled in Mexico City, over which Francisco Lagos Chazaro presided, formally presented to the Brazilian Minister, as the representative of the American government, for transmission to Gen. Carranza through diplomatic channels, a proposal for a thirty-day armistice, during which arrangements could be made for establishing a provisional government.

It was suggested that both sides should maintain a military status quo until the time to time, while the parleys continued. The plan included the holding of a popular election to elect a president and a congress, to be supervised by the factions in the control of various sections of the country.

The proposal was communicated to Gen. Carranza by American Consul Sullivan. On inquiry as to whether there would be any reply, Gen. Carranza is understood merely to have said there would be none.

Since last Monday Carranza has had a personal telegram from Gen. Villa urging a conference of their representatives for a discussion of peace terms. It is known here, too, that a delegation from the convention at Mexico City met Gen. Pablo Gonzalez, the Carranza commander, near the capital and asked for the arrangement of an armistice, and that he demanded in reply the unconditional surrender of the city.

The Villa-Zapata followers claim these efforts demonstrate their willingness to heed the suggestion in President Wilson's recent statement that the Carranza faction in Mexico settle their differences.

Gen. Carranza's intention for the present is understood to be to press his military campaign vigorously in the hope that on taking Mexico City and driving the Villa forces northward he will be in a position to merit the recognition of the United States.

Whether the Washington government will accord recognition to any one of the factions as now aligned, is not known, the policy of President Wilson for the future having not been outlined at any time since his recent statement.

NAVAL ACADEMY OFFICERS RESENT COURT OF INQUIRY

*Admiral Fulham Declares He did not Think it Necessary
to Go Beyond the Report of His Own Military
Aides, and Says He Believes Some One has been Spy-
ing Upon Him in a Manner that is Reprehensible.*

(BY A. P. NIGHT WIRE.)

ANNAPOLIS (Md.), June 16.—Rear-Admiral William F. Fulham, superintendent of the Naval Academy, declared today that he had such confidence in the judgment of the three officers who composed the board of inquiry which convicted seven midshipmen of guilty knowledge concerning a paper known to have been an exam-

ination paper stolen from the department of modern languages, that he personally did not think any further inquiry was necessary.

This expression of opinion was made before the court of inquiry appointed by Secretary Daniels to make further investigation of irregularities in examination papers. The superintendent had testified that expressions of disapproval of the midshipmen were based on the findings of the board he had appointed, made it plain, however, that he intended no criticism of the Navy Department. They had their own reasons for reopening the matter, he said.

At the morning session, Lieut. M. E. Manly, the Academy's aide, and Lieutenant-Commander J. T. Tompkins had testified that expressions of resentment and regret had been general among officers at the Naval Academy at the time of the present court of inquiry. In answer to a question by Mr. Carlin along that line, Admiral Fulham said:

"There has been a great deal of indignation expressed about a great many of the proceedings here. My actions have been pried into in a way that is reprehensible. I can only believe that someone has been spying on me."

The testimony today of eight midshipmen of the present first class was substantially the same. Practically every member of the former second class was in possession of advance information on the modern languages examination in some form or other.

The witnesses told of the practice of collecting and circulating the "dope" on the night prior to an examination. One of them said he did not know anyone could have passed the last examination in French and Spanish without having had advance information.

Many were accompanied by their wives and other members of their families. The party numbered about 140 persons. They visited the parks, Shaw's Garden, the Art Museum and other places. The residence sections also were visited in automobiles.

The delegates were met at the Union Station and taken to the Mercantile Club for breakfast. At 10 o'clock they assembled at the real estate exchange for the automobile tour.

The party reached the Bellevue Country Club at 2:30 o'clock, where luncheon was served and two hours' rest was enjoyed. A banquet was given delegates at night.

The Pittsburgh Real Estate Exchange had the largest delegation, thirty-four persons; Philadelphia had twenty; Washington, D.C., 14; Providence, R. I., two. The rest of the party were from Memphis, Birmingham, Nashville, Jacksonville and other points.

In the party was Thomas Shal-
cross, Jr., president of the national association.

DETROITERS ON THE WAY.
(BY BUREAU WIRE—EXCLUSIVE DISPATCH.)
DETROIT, June 16.—Twenty members of Detroit real estate boards, with members of their families, left this morning to attend the annual convention of the National Association of Real Estate Exchanges in Los Angeles, June 21-24.

Leaving Chicago over the Santa Fe, the Detroiters will have two cars of a special train of twelve coaches. The other coaches will be occupied by delegates from Cleveland, Toledo, Columbus, Akron, Erie and Milwaukee. A stop will be made Thursday in Kansas City, where luncheon and entertainment will be given by the real estate board of that city. Another all-day stop will be made at the Grand Canyon in Arizona, and a shorter stop at Riverdale.

After the convention the Detroiters will visit the exposition in San Francisco.

PARIS, June 17.—"A crowning victory will be the reward of moral force backed by material strength," was the essence of discourses by President Poincare to the munitions workers at establishments in Toulon, Toulouse, St. Chamond, Creusot and other places to which he has just made visits.

"The President everywhere insisted upon the great importance attaching to the manufacture of guns and munitions on a larger and quieter scale. 'The moral' force of our troops and people is admirable, and the enemy never will break it," said M. Poincare. "But we must not neglect the material power. All who aid in that patriotic task deserve the encouragement and the congratulations of the nation."

dere. They persist, however, in claims of victory over Villa at Ixmiquilte, where Gen. Hildebrando Vasquez, former Carranza commander at Nuevo Laredo, received fatal wounds.

A letter received here today dated Monterey, June 14, brings information that Monterey on that date had been surrounded three days by Villa forces. It was reported in Nuevo Laredo tonight that Constitutionalists had evacuated Monterey today and were retreating toward the coast.

The Monterey letter said Carranza officers had levied against merchants there for \$50,000 pesos. Carranza money, and for 150,000 pesos, gold, against three local banks to pay troops.

**CAPTAIN AND SERGEANT ARE
CONVICTED OF GRAFT.**

Other Prosecutions are Likely to Follow, Says State's Attorney, Who is Engaged in Crusade to Unearth Conspiracy with Criminals Which Reaches High Officials.

(BY A. P. NIGHT WIRE.)

CHICAGO, June 16.—James O'Dea Storen, captain of police, and Michael Weisbaum, detective sergeant, two of the defendants in the so-called police graft trial, were found guilty of conspiracy tonight by a jury in the Criminal Court. Frederick Roth, also a detective sergeant and a former partner of Weisbaum, was acquitted.

The jury fixed Weisbaum's punishment at three years' imprisonment in the penitentiary. Storen was fined \$10,000.

Attorneys for Storen and Weisbaum entered motions for new trials.

The case had attracted much attention because of the prominence of Capt. Storen, and for the further reason that it was the first of a number of similar cases involving police officials and detectives. Among those remaining to be tried are Capt. John J. Halpin, former chief of detectives, and Lieut. John H. Tobin, former chief of detectives.

State's Attorney Hoyne announced tonight that, in view of the result of the first trial, he would seek the indictment of a dozen other alleged corrupt police officials.

CITY'S DADDY TO THE PALMS.

Whiffen Adopts 'Em After
Sizzling Session.

Some will be Removed from
the Side Streets.

Those Nearest Dissolution, to
be Replaced.

By common consent of the civic organizations who gathered in the Board of Supervisors room to settle once and for all just who is to care for the decrepit trees that now line our streets, the city is now daddy to the palms. During the argument, which was loud and extensive, several unpleasant personalities cropped out that required a diligent application of oil before the proceedings could continue. In the end, F. J. Whiffen, representing the Councilmanic body, stood and asked that the city ought to care for and nourish the languishing palms, and he would see to it the Council order such action. Representative of the Park Commission, Board of Supervisors and the 1915 committee emitted high notes of relief, and gratefully thanked Mr. Whiffen for his adoption, on behalf of the city of Los Angeles, of the orphaned palms.

The meeting yesterday opened peacefully enough, with Councilman John W. Snowden acting as chairman. The question then arose, "Who wants the palms?" Those present looked at one another. No one answered. Mr. Snowden then called for objections to the Mayor's plan. A deep silence reigned. Nobody seemed to want the palms, and yet there was no real objection to their being kept on the streets. Supervisors Norton, Kellogg and the others, feeling that something should be said to start an argument, took the floor.

CHARGES HOGGISHNESS.
In reference to the cause of the trouble, Mr. Norton stated that from all appearances, several men whose names he would not mention were sore because they could not get their fingers in the \$750,000 appropriation pie that would have been donated to the 1915 General Committee, if he, the Supervisor, had not stepped in with severe objections.

When the smoke cleared, the question still remained. County Forester Flintham declared the poor things needed much attention. Mr. Priddy, chairman of the Board of Supervisors, declared the city police department was not giving the palms sufficient protection from persons of literary tastes who wished to carve their names on the trunks. Secretary Higgins of the Chamber of Commerce, thought the city ought to keep the palms. Meyer Lisner, chairman of the subcommittee on palms, read a voluminous report on the subject of palms in general and our palms in particular. Then it was put flatly to Mr. Whiffen to express the views of the city. Mr. Whiffen met the proposition with remarkable fortitude, pledging himself to have the city protect the friendless palm trees.

WILL MOVE SOME.
Mr. Lisner then made the motion that the palm trees on the principal highways be cared for properly until early in 1916. Those trees that grace the side streets, except Fifth and Seventh streets, were to be removed and placed on the main thoroughfares in sections that are now devoid of the so-called decorations. In making his motion, Mr. Lisner almost obliterated his own committee, but this attempt to resign was frustrated by quick action on the part of Mr. Snowden and Mr. Whiffen. Mr. Lisner incorporated into his motion that the subcommittee on palms be abolished immediately. This section of the motion was eliminated as out of order.

As it now stands, the city is to water and care for the palms until further notice. Mr. Flintham declared yesterday that in his estimation the palms will spruce up immensely if they receive sufficient attention. Those palms that are too far gone to be resuscitated, will be replaced by extra trees that are held in reserve.

It was further proposed by Mr. Lisner, but objected to by Supervisor Norton, that any additional maintenance that may be incurred by the breakage of pots or removal of same be paid by the city. Mr. Flintham declared the city is to pay only for watering and personal care. The county is to take care of all extra expenses. That is if Supervisors can be convinced that the county should.

FOR IOWA GOVERNOR.
Local Association of Hawkers Prepares an Elaborate Programme for Entertainment of Favorite Son. The Iowa Association of Southern California has planned a programme for entertaining Gov. George W. Clark of Iowa, who is expected to arrive in Los Angeles over the Santa Fe Railroad at 2:30 o'clock Saturday afternoon. A committee composed of Judge Wilbur, president of the State society, Judge Taft, vice-president, C. H. Parsons, secretary, and other members will meet the visitors at the station.

The Governor and his party will be given opportunity of taking a motor ride late Saturday afternoon with Chamber of Commerce escort. The executive and his family will be escorted to church Sunday morning and in the afternoon will be taken for a motor ride by Col. E. S. Ormsby, former president of the Federation of State Societies.

Gov. Clark and his traveling companions will leave for San Diego Sunday evening or Monday morning, returning to Los Angeles Tuesday for a trip to Long Beach, where they will be the guests of J. A. Rominger, an old friend of the executive, at Hotel Virginia. The afternoon will be devoted to a ride around Los Angeles harbor. The Iowa Association will give a reception to the visitors Tuesday evening in the lobby of the California Savings Bank, Fourth and Spring streets, headquarters of the society and also of the Federation.

A YEAR'S GOOD WORKS.
The annual report of the Monte Vista-street school Parent Teacher Association shows that the members were active during the past year. Ten all-day meetings were held to sew, thirty-nine new garments and 1009 worn garments were distributed. Special charity work was undertaken at Christmas time and on other special occasions. The charity fund was provided by special entertainments and by "silver" teas, given monthly.

shades left behind, and a stern world of dollars and cents ahead. However, recognition of this fact ran as the warp to the woof of all the set speeches, from the salutatory of Helena T. McKelvey to the valedictory of Florence M. Moore. "Our heritage is one of achievements in the cause of humanity," said Miss McKelvey, "and America has always been a nation of workers." That proportion in life means the elimination of the non-essentials was the assertion of Miss Moore, as she closed the programme of speeches with an exhortation to her classmates to acquire them well in the strife.

"Thousands of new graduates are going out into the world this month prepared to battle for humanity," said Willis C. La Motte in his oration, "Just Polka." "But the battlefield for most of us is not to be the world, but the heart, and the greatest vocation in life is to bring forth life itself."

A plea for better pay for teachers as "The Gardeners of Life" was made by Earl A. McDermont in his oration on this name.

Dr. Baer's annual commencement address followed, the usual end-of-the-year announcements were made, and the degrees of bachelor of arts and bachelor of science were then conferred.

One thing announcement that drew a perfect peal of applause was that Dean Thomas Gregory Burt would remain with Occidental, having refused the offer of the presidency of his alma mater at a considerable increase in salary. It was also announced that Dr. John Cutler Shedd, now professor of physics in Olivet College, will become the head of the physics department of Occidental next year.

THE HONOR ROLL.

HIT BY AUTO OF SOCIETY WOMAN.
DOMESTIC DANGEROUSLY INJURED; POLICE DETAIN DRIVER TEMPORARILY.

Miss Margaret Maury, a young woman of San Francisco, was temporarily detained at the Central Police Station yesterday following an accident in which her motor car struck down and dangerously injured Miss Hanna Johnson, a domestic, No. 121 East Fourteenth street.

The accident occurred at Fifth and Hill streets as Miss Johnson was attempting to cross at the signal of the traffic policeman. Miss Maury's car swung around the corner, striking Miss Johnson down. She has numerous broken bones, internal hurts and an injury to her head, which may develop into a fracture.

Miss Maury came to Los Angeles to take a business position, and has been resting and seeing the sights before going to work.

Pending developments in the victim's condition no action will be taken by the police. Miss Maury gave assurance that she would leave the city until the details of the accident are satisfactorily explained.

WEEK-END TICKETS.
At a meeting held in San Francisco yesterday by traffic managers of the California terminal lines, it was decided, for the greater accommodation of the traveling public, to place on sale regular Saturday excursion tickets to various resorts, such as Lake Tahoe and Yosemite, carrying a fifteen-day limit, on Fridays and Saturdays.

Makes Room for Fete.

(Continued from First Page.)

tention until a few days ago, when unusual developments came to light. The whole story hinges on the big and brilliant reception to be given next Wednesday evening at Mr. Doherty's home in honor of the thousands of realty men from all over the United States and Canada, who will attend the eighth annual convention of the National Association of Real Estate Exchanges in this city from June 21 to 26. This reception and lawn fete will be, perhaps, the most elaborate affair of its kind in the history of Los Angeles and the Los Angeles Realty Board and a host of patronesses from the highest social circles of the city are making extensive preparations for it.

The property Mr. Doherty has just acquired has long been coveted by him as an addition to his deer park. Mr. Doherty has also wanted it because the buildings on it, while modern enough, were not in keeping with his ideals of a suitable environment for his own and the other mansions of Chester Place.

The holding lies right back of the handsome Von Schmidt place, also recently acquired by Mr. Doherty, extending for 300 feet along the south side of Twenty-third street to Newhall drive, and running back 140 feet to the edge of the Doherty deer park.

Both repose in other locations, where the three-story Marlborough apartment-house, a flat building and a cottage, the whole looming up where all who approached Chester Place from that side must see.

Not a very prepossessing first glimpse of Los Angeles' most exclusive residence park for several thousand and critical realty men saw them one day and the next they were gone. Both repose in other locations, where the three-story Marlborough apartment-house, a flat building and a cottage, the whole looming up where all who approached Chester Place from that side must see.

TO PARK IT.
Haste in the work of clearing the latest Chester Place, which has been ordered all down the line, as everything must be presentable by the time of the big reception.

The Los Angeles realty men are trying to do better than let it go to twenty-third street, to tell the visitors the whole story. Three-story apartment-houses are not moved every day to make extra room for garden fete.

CRASH OF AUTO AND A WAGON.
ONE MAN POSSIBLY FATAALLY INJURED—DRIVER OFF IN A HURRY.

One man was seriously injured and two others severely bruised last night when an automobile driven by a man who gave his name as A. L. Harding, of Bell Station, struck the wagon in which the three were riding on Mary street, Huntington Park. Charles Downey, owner of the wagon, who was driving, was thrown violently to the ground. His skull was fractured and his arm broken. He was rushed to the Home Hospital in Huntington Park, where the physicians said he has small chance of recovery.

Immediately following the accident Mr. Harding, who stopped only long enough to give his name and address to bystanders, charged away. The Sheriff's office is now searching for him.

Mr. Downey, who gave his address as No. 807 San Pedro street, accompanied by George Stephens, No. 815 San Julian street and C. A. Remmington, No. 5423 Sierra Vista street, was driving north on Mary street. According to Messrs. Stephens and Remmington, Mr. Harding was driving on the wrong side of the street, going south at breakneck speed. The automobile struck the wagon a glancing blow, just grazing the horse.

The three men were thrown out, the wagon overturned and the frightened horse, drawing the upset wagon, lumbered down the street some distance before caught.

HARBOR DREDGING WORK.

Notices were issued yesterday by Maj. R. R. Raymond, the United States district engineer, that a map showing the location of the dredging which the Board of Harbor Commissioners proposes to do on the western side of the entrance channel to the Inner Los Angeles Harbor will be on exhibition in his office until 11 a.m., the 22nd inst., and objections, based on navigation interests, must be filed in his office on or before that date. The Harbor Commissioners propose to dredge a channel, 200 feet wide and 1300 feet long to a depth of thirty-five feet.

NEW THRASHING FOR OLD STRAW.

SCHMIDT AND CAPLAN BACK WITH SAME CHARGES.

Motion to Set Aside Indictments Which was Denied is Nearly Duplicated in Instrument Purporting to Attack Integrity of Grand Jury Accusing "Times" Dynamiters.

Attorneys for M. A. Schmidt and David Caplan, the two alleged dynamiters now in the County Jail charged with complicity in the destruction of The Times Building and the loss of twenty lives, yesterday filed a motion to renew a motion to set aside the indictment against the two men.

The papers were filed in Judge Willis's court by Charles H. Fairall and Fred H. Moore, attorneys for the defendants. The motion will be argued before Judge Willis on June 28.

In the motion it is set out that the grand jury which indicted the dynamiters learned that organized labor was behind the dynamiting of The Times, as well as behind the systematic dynamiting of other institutions, and the resultant loss of many lives. Since this theory has been upheld by Federal and State courts, the motion, in that respect, is said to be founded upon substantial fact.

The motion itself is a brief for organized labor and sets forth that these who participated in the prosecution of the McNamara and the indictments of Schmidt and Caplan were inspired by malice and hatred and ill-will, and a prejudice that prevented them from acting impartially.

A former motion to set aside the indictment was filed March 16 and denied April 5. The present one is very similar.

The motion filed yesterday, which is identical in the two cases of Schmidt and Caplan, is based upon "newly-discovered" evidence of what happened nearly five years ago. It is charged that the grand jury was set aside and returned in a manner contrary to law; that the jurors were prejudiced and biased against the defendants; that the witnesses examined and depositions read were not appended to the indictment.

PIONEER MUSICIAN DIES.

Widely Known in Southern California as an Orchestra Director and a Band Master.

Ferdinand Meine, a pioneer musician of this city and for many years director of the old Grand Operahouse orchestra, died at his home, No. 123 North Korn street, yesterday morning after a long illness.

Mr. Meine was well known among the orchestra and band men of Southern California. He came here in 1887, bringing the Meine Brothers Military Band and Orchestra, the first concert organization of the sort permanently established in Southern California. It remained intact many years.

Later Mr. Meine became musical director of the Los Angeles Theater on Spring street, later known as the Orpheum and now the Lyceum. After Harley Hamilton resigned as the Grand Operahouse, Mr. Meine took the director's desk, eventually resigning that position to his son, Bernhard P. Meine, the present Grand Operahouse orchestra director.

Mr. Meine was a member of Los Angeles' pioneer symphony organization, the Philharmonic Orchestra, A. J. Stamm director, and for twelve years he played first violin with the Los Angeles Symphony Orchestra, Harley Hamilton director. He leaves a widow, Mrs. Mary Meine, and three sons, Bernhard, Emil and William. Arrangements for the funeral have not been made.

SLAYING, IS VERDICT.

Inquest Held Over Body of Japanese Found at Ocean Park Heights.

No Clwa.

Murder was the cause of the death of the unknown Japanese at Ocean Park Heights Monday night, according to the verdict of the coroner's jury returned yesterday at an inquest. The verdict says: "Death came from a gunshot wound inflicted by persons unknown."

C. S. Sims, a ranchman, testified he heard four shots Monday night, and saw a horse and buggy standing in the road near where the murder was committed. A Japanese, he said, was asleep under the buggy. No further clues to the identity of the slayers have been developed by the deputy sheriffs working on the case.

Civil Service Convention.

(Continued from First Page.)

right and in the past have used it
frequently, to refuse a certificate.
The speaker discussed the beginning
of the civil service idea, dating back
four years and explained the techni-
cal problems that confront it. He
closed his talk with an invitation to
the Assembly to meet next year at
Ottawa, Can., which may be acted on
favorably, according to numerous
delegates in favor of a meeting outside
the United States.

When the convention was called to
order by Acting President, F. E. Dutz,
of Los Angeles, yesterday morning,
State Senator Stanley Benedict, on be-
half of Governor Johnson, welcomed
the visitors. He spoke briefly of the
civil service plan and its effects in
this State. Harvey N. Shepard of the
Massachusetts State Commission re-
sponded on behalf of President
Thomas F. Boyle of Boston, who was
unable to be present.

AS TO MORALITY.
After numerous committee reports
as well as reports of officers, several
of the delegates were called on for
brief remarks. Dr. Henry Moskowitz,
president of the New York City Com-
mission and regarded as one of the
men foremost in the civil service idea
in this country, declared that men
need much more than mere brilliancy
of intellect. "They may have wonder-
ful minds and at the same time loose
morals," he declared and announced
that a new departure had been started
by the New York Commission in an
investigating committee of six mem-
bers which looks only into the moral
and social side of the character of
men who are seeking positions.

Dr. Moskowitz will later read a
lengthy paper on the methods em-
ployed in New York City and their
effect on the other service regulations
of the country. Robert Catherwood
of Illinois, also scheduled for an ex-
tended report today, declared that
in Chicago the standard of civil ser-
vice has been raised to a very high
degree but that, despite this fact, dis-
appointed politicians looking for
spoils, endeavored to legislate against
it. "Even our Public Utility and
several other commissions of impor-
tance, come under civil service," he
stated.

Guy Cochran of this city declared
that much greater efficiency in civil
service could have been attained here
were it not for the financial hind-
rance, the City Council failing in sym-
pathy for the objects of the Commis-
sion and not even providing a sum
large enough at times to pay for
necessary expenses. He declared that
there is still consolation to be found
in the fact that while no favorable
legislation toward civil service has
been passed by the Legislature, the
unfavorable bills were also vetoed.

E. A. Walcott, frequently termed
"father of the civil service movement
in California," during the afternoon
delivered a long historical paper on
the vicissitudes of this work from its
first proposal to the present time.
After the adjournment, the visitors
were taken by automobile to the home
of Miss Mary Foy at San Rafael
Heights and there given a real Cali-
fornia reception among the trees and
flowers, followed by a barbeque din-
ner prepared by Chef Romero. Span-
ish singers and dancers added to the
pleasure of the occasion.

Which opened in this city yesterday with delegates present from all parts of
the country. At the top is William Foran, the first Canadian delegate
ever recorded at a national assembly of civil service commissions. Be-
low is Dr. H. Moskowitz, president of the New York City Commission
and considered one of the leaders in the national movement for greater
efficiency in public places.

TAKES POWERFUL POISON.
Ill and Poor, Man Swallows Potas-
sium Cyanide—Dies Trying to Clasp
Wife's Hand.
Cyanide of potassium, most power-
ful of poisons, was used by Richard
Wardell, 42 years old, No. 117 East
Avenue 47, yesterday to end his life
following a siege of ill health, with-
out funds to finance his invalid-
ity. He had told his wife several
times he intended to relieve her of
the burden attending his condition.
She thought it but the moroseness
of an ailing man that inspired such a
sentiment, until he called to her
yesterday in a frightened tone. She
hurried to his side, but the poison
had stricken him dumb, and his fare-
well expression was a feeble effort
to seize her hand for a final pressure
as he passed. The body was taken
lack of funds to finance his invalid-
ity to the Highland Park morgue.

PRIDE VS. PROSPERITY

Are you as prosperous as you look, or are

CALL FOR MORE GIRLS.

Attendance at Plaza Mission Fes-
ta so large that They're Needed
as Hostesses.
So large has been the attendance
at the festa held all this week in
the patio of the Old Plaza Church
that it has been found necessary to
request more girls to help out in the
booths and at the dinner tables. From
all indications, there will be a sub-
stantial fund on hand by the time
the last visitor has bought his ice
cream or souvenir Saturday night to
aid in the completion of the restora-
tion of the church.
The festa continues every day from

11 o'clock in the morning until mid-
night. Luncheon and dinner are
served by the pretty girls acting as
hostesses. The visitor may have his
meal American style, or, if he so de-
sires, he may eat the frijoles and
"carne con chile" of Mexico.
Entertainment is provided between
meals by pretty señoritas, who sing
and dance on the small stage erected
especially for the occasion in one end
of the patio. The celebration will
continue today, tomorrow and Satur-
day.

WON'T LET HIM QUIT.

Some time ago Willis N. Mills, spe-
cial assistant to Attorney-General
Gregory in the conduct of land cases
in which the government is interest-
ed, tendered his resignation with the
formal closing of hearing of the Elk
Hills suit against the Southern Pa-
cific. The tender was taken under
advisement and later on Mr. Mills
was informed that his resignation
would not be accepted; that it was de-
sired that he continue in the service
of the government. The Elk Hills case,
that has resulted against the con-
tention of the railroad company, was
prosecuted from start to finish by Mr.
Mills, and the victory of the Govern-
ment is quite a feather in his cap.

BRAVES BEAT CUBS FOR FIRST TIME.

CHICAGO, June 16.—Batting Cheney hard in the fifth inning, Boston won its first victory of the season over Chicago, 4 to 2. Pierce held the champs runless during his stay on the mound, but Tyler pumpled the Cubs when they pressed the series today and fast fielding helped him out of the pinch. Smith was banished from the game and Evers from the field for arguing with the umpire, and early in the game most of the Boston substitutes who had been sent out of the grounds Sunday and Tuesday voluntarily left. Zimmerman was spiked when Fitzpatrick slid into second and had to retire. The score:

ST. LOUIS, June 16.—Meadows, by pitching hitless ball for five innings, helped St. Louis win from Brooklyn, 4 to 3, here today. Snyder's single in the sixth sent Miller and Long home, the latter with the winning run. Nap Rucker started for Brooklyn, but was relieved after he had granted the locals three hits and two runs. Griner, who started for St. Louis, was relieved in the following inning, having allowed Brooklyn seven hits in three innings. The score:

NEW COLORS ON LICENSES.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SACRAMENTO, June 16.—A. H. French, superintendent of the Motor Vehicle Department, has announced that the permanent design of the California motor licenses will be blue numbers on a white background. This is claimed to be a more durable combination than the other colors which have been used. Under the amended motor vehicle law, passed by the last Legislature, new plates will not be issued each year, but a plate, once secured, will not be renewed as long as the machine does not change hands.

PITTSBURGH, June 16.—Pittsburgh defeated Philadelphia here today, 2 to 1, scoring the winning run in the sixth on a single, a sacrifice and an error. The Phillies made their only run in the second on Nishoff's single. In the sixth inning, the Pirates tied the count in the fourth on Collins's triple and Wagner's out at first. The score:

BUFFED DROP DOUBLE BEAT.

(BY A. P. NIGHT WIRE.)
BUFFALO, N. Y., June 16.—Chicago opened the series today by taking both games of a double-header from the Buffalo team, 5 to 0 and 3 to 1. Both Hendrix and Prendergast were in fine form. In the first game, Anderson had two hits in the fourth and two singles, a base on balls, a triple before a man was down finally netted four runs. In the seventh three-run home hit and an error added three more runs. No Buffalo player got past first base in the second game until the seventh inning. The score:

LIN MURRAY QUITS TRACK.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, June 16.—R. Landry Murray, former Stanford University track athlete and later national tennis star, today announced his permanent retirement from cinder path activities. Murray was counted upon to represent the Olympic Club of San Francisco in the half-mile at the coming Amateur Athletic Union championships. While at Stanford he covered the distance in one minute and fifty seven seconds.

pranced home. Rube picked up the ball and threw wide to McMillen. Helman, alert for every chance, skipped along to second. Downa scored him with a tidy single to left. With no chance of getting his man, Rube threw home and Jerry reached second. Hughes was then out. Dillon did not get the kind of hitting and that kind of support.

Mighty few pitchers can beat two ball teams. The same was true ever. It was figured that Bill Burns might possibly do so, and he was sent in. Jones sacrificed Jerry to third. Helman's single, a sacrifice to Meigs, George threw to Brooks, who chased Jerry back to third and then hit him in the back with the ball. Downa later scored on Block's sacrifice of Leard. Dent grounded to McMillen.

Downa secured quite prominently in the pastime. Not only did he drive in a couple of runs, but in the field he cut out three or four things that looked like regular base hits. In the fifth, Melton deposited a short down on the left field line and was singled across by Bodie.

Block beated in the sixth with one gone. Block drove to Meigs and both men were safe on a fielder's choice that proved the wrong guess. Dent singled, Leard counted, and Meigs showed some fine roll to Meigs. Magner made a fine throw that figured to nail Block at the plate until he dropped the ball. Schaller singled some more, and Perritt went in to pitch. Bodie plunked to McMillen, who made a fine throw to Meigs, but he was too late to force Schaller. Helman rolled one down to Zeb, who tossed to McMillen, and this third attempt of the inning to force a runner was successful. Ping being the party.

The Seals acted in an orderly manner until the ninth, when a walk by Bodie, Helman's single, a sacrifice by Jones counted two. Los Angeles put the over in the eighth, when McMillen slammed a triple to the fence and Rube singled. The Angels scored a ninth-inning run when Helman had connected with a couple of pinch hitters, Ryan and McDonnell. When they had been retired, Magner walked and Meigs, Dillon and Walter. McMillen slammed a hot line drive into the paws of Mr. Jones for a final out.

GOLFERS PLAY BRILLIANTLY.

Championship Tourney Sees Low Scores.

Travers Turns in Same Card as Outmet.

Hagen Looks Like He Might Repeat.

(BY A. P. NIGHT WIRE.)
SHORT HILLS (N. J.), June 16.—There was no questioning the quality of golf shown today by the leaders in the thirty-six hole qualifying round for the annual open championship of the United States Golf Association over the Baltusrol links. Thirty-two men qualified from the first half of the big entry yesterday when the best medal score was 151, made by Francis Ouimet, the national amateur champion, from Massachusetts, and James Thompson, the Philadelphia professional.

Today, however, three lower scores went to the top of the list and Jerome D. Travers, who has won more championships than any other amateur golfer in America, tied yesterday's best score.

Walter C. Hagen of Rochester, the present holder of the title, played steadily, if not brilliantly, throughout the day, and in his showing he has a fairly good chance of repeating his victory of a year ago. Louis Taylor, ex-champion of France, who played a round with Hagen, finished on equal terms with the champion, and he, too, is considered a promising candidate for the title.

Outmet and Travers, with equal results in their scoring eligibility, have given evidence of being right up to championship form. Chick Evans, the Chicago boy, and western amateur golfer, had a good round, finishing with a score of 138, and there is a good opportunity for some of the younger men to get very valuable experience.

REICH KNOCKS OUT NORTON.

(BY A. P. NIGHT WIRE.)
KANSAS CITY, June 16.—Al Reich, New York heavyweight, won the first move in his comeback campaign for a match with Jim Coffey here tonight, when he knocked out Al Norton, Los Angeles in the second round of a scheduled ten-round bout. A right hook to the jaw a minute after the gong sounded put Norton down for the count of nine. Another in the same place, an instant later added the finishing touch.

CALLS STRIKES TOO SOON FOR SAFETY.

BAD HABIT OF YELLING WHILE BALL IS ON THE WAY.
Umpire Rigler, if anything, is weaker on balls and strikes this season than ever, writes Bill Pflizer. He has always had the fault of, at times, calling them before they reach the plate, so that many a curve that cuts in across the platter is announced as a ball, while many that leap wide are called strikes. This has always been Rigler's fault—and yet he is kept all the time behind the bat. His partner, Hart, having been a pitcher for twenty-five years, ought to be an excellent judge of balls and strikes; Rigler is a corking good arbiter of field plays—why don't they reverse their positions?

SWELL EXPERIENCE FOR TENNIS GENTS.
PRACTICE IN NORTH WILD HELP LOCAL MEN TO LEARN GAME.
"Grub" Clover and Kenney Hawke, former Pasadena doubles champions, will not compete in the local tournament in July. These two racket wielders have departed for the north, where they will work some, and play tennis the rest of the time. The idea of these fellows is to get a lot of practice against such players as Johnson, Griffin, McLaughlin, etc. All of these champions spend a great deal of their time on the Golden Gate courts and there is a good opportunity for some of the younger men to get very valuable experience.

STANFORD FEARS FACULTY MAY CUT OUT ATHLETICS. WOMEN DRIVE CLOSE RACE. CARDS STICK BY RUGBY. ROY MITCHELL OUT OF LUCK.

STANFORD is not worried because California has turned from Rugby to American football. The Cards have signed up with Santa Clara and Nevada to play Rugby and will have whatever competition these teams can give.

The real thing Stanford fears is that she may be cut out of all kinds of athletics by her own faculty.

For several years there has been a very strong faction in the Stanford faculty which believes in the abolition of intercollegiate competition on the athletic field.

This faction, which has a majority, has allowed Card teams to compete under surveillance, more to encourage Rugby than for any other reason.

The withdrawal of California from the Rugby field has put the future of the English game very much in the air, and with the wider field of competition possible because of the American game, there is very little chance that the Bears will ever return to short pants.

This places Stanford in a field of competition which shows no prospect of growing larger, and the chances are that the anti-athletic element in the Stanford faculty will avail themselves of this opportunity to point out the uselessness of continuance in athletics.

Stanford is practically prohibited, by faculty ruling, from ever again playing the American game, and this would give the non-athletic element a fine chance to choke off Cardinal athletics for good.

down to weight, and injured himself early in the season. Inside of two months he retired, and opened a dental office in this city.

He attends the games regularly, but his sole interest is that of a spectator. Among them, Dillon, Moore and Howard, cared for first base for the remainder of that season, and during 1913.

Last year Bill Abstein, who was one of Dillon's successors at first base for Pittsburgh, was imported from the Southern Association. He had a grand year, hitting over .300, and ranking third in number of runs driven in. The present season, however, found him in the throes of an unexplainable batting slump, from which he was unable to extricate himself. In perfect condition, and a natural batsman, there was no accounting for his slump. It must be laid at the door of the slump.

Then came Jack Beatty to relieve the situation. Jack had been with the club but two weeks, and was just getting started, when he bunted his arm. McDowell, who had been signed to contest the place with Abstein, broke his ankle in spring practice. Yesterday when he went in as a pinch hitter, it was his first appearance in a championship game this year.

In order to bridge the crisis, Phil Koerner has been signed. Naturally, everybody is wondering whether Phil will simply break a leg or get killed out of the game.

Life is just one first baseman after another.

Abstein left last night. Koerner is due to arrive this morning. Seattle is Abstein's destination. He yesterday accepted an offer to play first base for that club. Only a short time ago Los Angeles purchased Beatty from Seattle at considerable expense. By signing Abstein, who was a free agent, Seattle plugs up this vacancy at no expense whatever.

There is a weird story going the rounds to the effect that Del Howard is still on the payroll of J. Cal Ewing. It is told only in whispers, and we are unable to vouch for its authenticity.

According to this report, Howard had a two-year contract with the Seals which runs through the present season. When Berry took over the Seals he decided to burn all bridges behind him and take a brand new start. The club required rebuilding, and it was deemed advisable. Howard had made a fine showing with the club, but the Frisco fans were somewhat peeved because Del refused to play regularly. They had it figured out that Del's hitting, had he been in the game regularly, would just about have copped the pennant.

So Ken decided on a change. Whether Howard's contract was verbal or written, Berry did not assume it when he purchased the Seals. It is said. It seems to have been a matter between Ewing and Howard. The claim is made that Howard had only a verbal contract with Ewing, and that, therefore, it was not binding. Opposed to this is the statement of others, who assert that Howard is receiving this year's salary in regular monthly allowances.

When it became necessary to appoint a new manager for the Tigers, Ewing, so the story runs, urged Maier to put Del Howard in the place. This would seem to bear out the report that he would like to get some club to assume Howard's contract, if such a document really exists. For the same reason, it is intimated, Howard was also strongly recommended for the management of the Oakland club.

Ewing is out of baseball, with the exception of this alleged contract with Howard. He would like to get entirely out of the game.

This is simply the way that it has been told to us. We do not vouch for the facts.

Spider Baum is the most sanitary

epithelial pitcher in the league. Baum has a splitter that is a peach, the best in fact, Dillon says, that he has seen since he batted against Charley Hall.

Nearly every pitcher with a damper, every mope all the dirt off the surface of the ball with his tongue before throwing it. Spider is more, chaste about it. He licks the dirt off in only one spot, and then does it so modestly that half of the fans do not know that he is throwing a spitball.

There are five very important tennis tournaments going on at the present time. All of these are doubles affairs and are being played to determine the players for the national doubles tournament later in the year.

The Northwestern States, Eastern States, Southern States, Western States and Pacific Coast States are the five divisions. As soon as the champions of the different sections are selected a national contest will be staged to determine the winner of the whole bunch.

This team whoever it is will go up against McLoughlin and Bundy for the title.

Frank Donley, local dope dealer, gives it out that William Johnson and Johnny Strachan will cop the Pacific Coast honors with ease. If such be the case they will represent this division in the semi-final struggle.

Wetmore scored against Steele, 71 to 61, with high run of fifteen, for the horseshoe pocket billiard tournament last evening, winding up the two scores with four wins for himself and three for Steele. This apparently assures Wetmore of third prize, while Steele may tie for fourth.

Garner and Rosen play their last games tonight at the Palma & Bird parlor.

Pederson won over Steele in the bankers' pocket billiard tournament at the Voorhes Palace, with totals of 18 to 41. The game ran forty-one frames. Pederson securing seven as high run.

George C. Woodward and C. H. Emmons have been admitted as competitors from the Farmers' and Merchants' Bank. Woodward meets Joslin this evening, and Emmons plays Adams tomorrow night.

David Orr, the old-time baseball player who covered first base for the Columbus American Association team in 1912 and later for the Brooklyn Nationals, died suddenly of heart disease on June 13 at the home of his niece, Mrs. Harry Britton, in Richmond Hill, Long Island.

President Ray Johnson down on blocking base runners.

In spite of the fact that President Ray Johnson has issued instructions against catchers blocking base runners, we read in a Cleveland paper that "Lavan was prevented from reaching the plate by a bit of skillful blocking by O'Neill" and the umpire called Lavan out.

AT THE STAGE DOOR

The Jinx is at last wished off the Morocco Theater! Al Johnson has done the four-leaf clover, horse-shoe-over-the-door act. The Turkish pass effect of empty seats is no longer "visible." Al's dancing around packs "um. People who ordinarily wouldn't spend a nickel to see the resurrection, are buying.

And Kolb and Dill, better luck than the new moon over your right shoulder, or even a rabbit's foot found by a cross-eyed nigger in the dark of the moon, are the next attraction.

Some Fun.

The festive Al is a great baseball fan. He's out at the park everyday, hollering himself so hoarse he nearly has to carry his voice in a sling at night.

"Don't care who's playing, either," he said yesterday. "All across the country there were one night stands, and some of the snappiest games I ever saw were put up by High School kids.

"Down in Atlanta, I reached the grounds after the contest had started, and not seeing a score board called out to the negro coach, asking what the score was.

"Sixteen to nothing," was the reply. "Sixteen to nothing," shouted the comedian. "They're wallupin' you, eh?"

"Wallup nothing, we all ain't been to bat yet!"

Bob Stutz.

Al Johnson is making scores laugh these days, but he hasn't been laughing much himself for a couple of days.

"Understudy Job," he explained. "Have a holl on the back of my neck, a finger that got smashed in an automobile door the other day, and today I have such a painful gathering in my ear that I can't hear the music, and have to get my cues by thought transference. Can you beat that?"

Hard on the Con.

But good-natured? Always.

"Was late getting in from the ballgame yesterday," he said. "I'd like a street car, but it wouldn't wait for me. What did I say to the conductor? Why, I just hollered: 'Hope you're a conductor all your life!' Well, maybe that was a bit severe!"

Good Luck.

Low Dockstader didn't arrive at the Morocco Theater last night in time to get a seat. So he stood up and watched the Johnson show. Low Dockstader "discovered" Al when the latter was a youngster, got him a job, and saw him through to the top. Which places him in missionary row.

Milky Way.

Rahsarsala for "So Long Letty," are under way at Burbank Hall. Across the corridor is being held the Milkman's Convention.

Billy Rock going to rehearsal viewed a familiar face on the stairway. The man smiled.

"Haven't I met you before?" smiled the genial Billy.

"Yes," grinned the man, "you was just gittin' home last night when I stopped to your house."

"Cur-tain!" called Billy.

Even Then.

Test of Charlotte Greenwood's comedy quality: Sydney Grant (friend husband) has just purchased Miss Greenwood an automobile, and she claims she is funny even when adjusting a new tire. Greater comedy hath no man than this.

Clever Girl.

Miss Greenwood will have one of the leading roles in "So Long Letty," in fact she is to be either "So Long" or "Letty." I'm not clear which, and she will play the part "straight" and get away with it. That's the wonder-ful thing about Miss Greenwood's comedy; she's the only comedienne in captivity who can both look pretty and be shriekingly funny at the same time.

Frank Bacon, who charmed us as

Hunter," will play the part of the

"Professor," in the "Elizir of Youth,"

which goes on at the Burbank next

Sunday afternoon. Marjorie Ram-

beau has the lead.

Winifred Bryson will play the part

in which she made so great a success

in the East, viz., the Spanish girl.

Lillian Elliott and James Corrigan

have the parts which they played in

the East. On the strength of their

success they were offered the roles in

the London production, but declined.

Louis Bessillon will play the part

of the naughty old rascal, and Forrest

Stanley will play the lead.

Outraged.

The untimely death of Elmer Booth

is greatly mourned these days by his

brother actors.

He created the principal role in

"Stop Thief," and was immensely suc-

cessful. But there is a tale of heart-

break and thwarted ambition connect-

ed with the play; for, while his man-

agement conceded his success, when

the production reached New York

they insisted on a "big name" and

another actor was chosen for the

part.

Louis Bessillon of the Burbank

company relates that though bitter-

ly disappointed, Booth never cher-

ished any animosity, but afterward

did a service for this self-same actor;

that in fact Booth was one to whom

all western actors stranded in New

York went in time of need, and he

never refused either a dollar or help

in landing a job.

Mr. Booth was the sole support of

his mother, who resides in this city.

Poor Lo.

Edmund Lowe is so sunburned from

bathing at the beach yesterday that

last night he was in agony when he

had to don those scratchy frills. His

"langwisch" would have done credit to

Good Queen Bess herself, "he said.

The Great Will.

Speaking of "Master Willie Howe" and Shakespeare, Marjorie Rambeau relates that once, when she was 16 and a member of a rep. company touring the State of Washington, she played "Mercutio" to Irving Bunkell's "Romeo." The joke is that Miss Rambeau, dainty and small, played the roystering young blade, while Bunkell had been a blacksmith before he went on the stage, and played 250!

Sole Staff.

And Mr. Bessillon relates that when he played Shakespeare once with a rep. company, out West, there was no

money and his shoes were worn out.

"I begged the manager for the price

of some shoes," he said, "but he

only retorted I ought to be glad I

was eating. So I cut pasteboard from

some old shoe boxes, the result of

more arduous days, and placed them

inside my worn-out shoes. They

were not tested by railroad ties so they

did very well!"

Reducing.

Sydney Grant has the role in "So

Long Letty" of the poor abused hus-

band whose wife is interested in clubs

and missionary work, and doesn't

feed him enough. "She sent cans of

red tomatoes to the tribes around the

equator, and her husband ate potato-

es he did!"

Mr. Grant says he is dieting for the

role!

Splash!

The chorus in "So Long Letty" will

have a novelty number, nothing less

than a bathing number. That is, the

girls wear bathing suits. Of course, the

water is prop. water.

Campaign Note.

Manager Oliver Morocco is begin-

ning to lay his plans for his New York

campaign next season. It will include

about six New York productions. The

Burbank will incubate a number of

new plays within the next few weeks.

Sweet Charity.

Mme. Yorika, protégée of Sarah

Bernhardt, who appeared at the Or-

pheum a few weeks ago, is spending

her vacation in this city. However,

it's not an entire rest, for the gen-

erous-hearted actress has taken some

dozen talented youngsters under her

wing and is teaching them the art of

acting without receiving any pay for

her labors.

She has also tendered the services

of herself and support to the French

Red Cross Society of California, in

two benefit performances, one to be

given on Sunday evening, June 23,

at the Grand Club Auditorium, the

other on Tuesday evening, June 25,

at the Little Theater.

The programme to be given on both

occasions is as follows: The second

act of "Le Voleur" (The Thief) by

Henri Bernstein; the fifth act of "La

Dame aux Allures" by Alexander

Dumas; "Ceteaux du Medoc" by Tri-

stan Bernard, and the third act of

"L'Alphonse" by Edmond Rostand.

Tickets may be obtained from the

Viole-Lepichin Drug Store, Commer-

cial and Main streets; from Boswell & Noyes, Third and Broadway, and at the Grand Club Auditorium or Little Theater on the evenings of the performances.

Good John.

John McGraw, who was ill for several days, has recovered. He spent his days of recuperation at his mountain home in Verdugo, and is so grateful for returned health that he proclaims he will make it a hospital home for any of the "Mines Play" actors who chances to fall ill.

SECOND FRAME OF CLUB HANDBALL.

FAST MATCHES AND LOTS OF EXCITEMENT ARE ASSURED.

The second frame of the Los Angeles Athletic Club handball tournament is now being played off.

The struggle will probably last till June 21, and by that time the lesser stars should be very thoroughly thinned out.

In the first lap there were several fast matches and a great deal of excitement was kicked up over the affair. The second round will be much better and every game will be fought out to a finish.

The drawings for the second frame follow:

Championship Class: Courtney Lacey or Joe Amestoy vs. Ray Dunne or Stan Mitchell, Chas. Ruggles vs. C. E. Larson.

Class A: Robert Newmark or Art Howard vs. W. B. Paris, E. H. Elkins vs. bye.
